Products

- Large format SLR camera laser cutter
- Specialized lace laser cutting machine
- Jeans leather laser marking machine
- 3D dynamic laser marking machine
- Co2 laser marking machine
- Metal Fiber laser marking machine
- Mini desktop laser marking machine
- Automatic pick-up positioning CCD camera I
- Auto feeding laser cutting machine
- Fabric leather laser cutting machine
- Specialized acrylic wood laser cutting machi
- Motorized up down table laser cutter
- Four head high efficiently laser cutter
- Flat bed laser cutter
- Laser machine spare parts
- Fabric leather double head laser cutter

Product Description

Double Head Laser Cutting and Engraving Machine work with 2 sets of co2 laser tube, power supply, cooling system and laser cutting heads. processing efficiency will be doubled. Dual heads Laser Cutting Engraving Machine is to put the moving control into full play and therefore inc effects of laser processing. In each aspect, from the software design, mechanical structure to the configuration, the tenet is to serve for the pre the stability, precision and speed under the safe and overall quality-management working environment. There are two working places for this Machine/Engraving Machine, which can alternate automatically so that the machine can cut while feeding.

Features:

- Two working places can alternate vertically and enable the cutting while feeding
100% production increase, 10% material consumption decrease and no abrasion on the baseboard
- All optical-coupling isolation system accompany with the high speed differential input and output circuit design results in no signal distorted transmission, and highly anti-interference ability , with 12 signal outputs and 16 signal inputs, easily connected to production site.
- 128 files can be save for the off-line computer work, which is proper for large quantity and repeat processing. Cutting path could be optimize requirement.
- SmartCarve controller with USB2.0 high speed interface, ensures efficient and safety data transmission
- Support uninterruptible engraving after power-cut, work time preview.

Technical Parameters of ETD-1610 model Double Head Laser Cutting Machine

Model	ETD-1610
Maximum Cutting Area	63" x 39.3" (1600mm x 1000mm)

Contact Us

Tel:0086 769 27223327

Email: ht@hunstlaser.com

Add: No. 3, yangwu road, shangjia, wanjiang district, dongguan city, guangdong province, China.

Laser Power	CO2 glass laser tube 60W-150W (Normal lifespan: about 6000 ~ 10000 working hours)
Cutting Speed	15.7" (400mm) / s (Adjustable)
Maximum Cutting Thickness	1.2" (30mm) (Acrylic)
Resolution Ratio	0.0064mm
Positioning Precision	0.0009" (0.025mm)
Power	2000W
Cooling Method	Water cooling and protection system
Supported Image Formats	BMP, PLT, compatible with many file formats for Windows OS, such as AI, CorelDraw, Photoshop, AutoCAD, etc.
Cutting Software	LaserCut 5.3 engraving software
Interface	U disk, ethernet
Voltage	AC110V - 240V, 50Hz/60Hz

ETD Series Related Models

Model	Effective working travel	Weight
ETD-1280	1200*800mm	350kgs
ETD-1390	1300*900mm	400kgs
ETD-1610	1600*1000mm	480kgs

Applicable Materials:

This type Laser Cutting Engraving is suitable to wood, paper, leather, cloth, organic glass, resin, acrylic, woolens, plastic, wollens, plastic, rubber, ceramic tile, crystal, boulder, bamboo and other non-metal material.

Applicable Industry:

This kind of model Double Head laser cutting and engraving apply to cloth, leather, fabric toy, computerized Embroidery cutting, electric product
