## Products

- Large format SLR camera laser cutter
- Specialized lace laser cutting machine
- Jeans leather laser marking machine
- 3D dynamic laser marking machine
- Co2 laser marking machine
- Metal Fiber laser marking machine
- Mini desktop laser marking machine
- Automatic pick-up positioning CCD camera I
- Auto feeding laser cutting machine
- Fabric leather laser cutting machine
- Specialized acrylic wood laser cutting machi
- Motorized up down table laser cutter
- Four head high efficiently laser cutter
- Flat bed laser cutter
- Laser machine spare parts
- Fabric leather double head laser cutter

WhatsApp:00861392925673

Email: ht@hunstlaser.com

Add: No. 3, yangwu road, shangjia, wanjiang district, dongguan city, guangdong province, China.

Mark & model: ETP80, small size, quick response, it is suitable for 80w to 100w laser tube.

Origin: Asia and Pacific Area China

Quality standard: International

H.S. Classification: Machinery & Electronics Electr. Element 8541 Semiconductor devices; light - emitting diodes parts.

We can supply AC110V and AC220V two style of power source, please tell us your voltage when order and inquiry.

### Features:

This power supply / power source adopts thin type design. The shape of this power supply / power source is thin which is specially designed

The power supply / power source makes laser tube output larger and more stable.

Quick Response: It can enlarge laser power and prolong laser tube's service life.

Easy Control: The start and stop of laser can be easily controlled by TTL level.

This power supply / power source has output open circuit protection.

This power supply / power source has TTL signal indication, water through signal indication and laser output indication.

This power supply / power source has the BUTTON to test it work properly.

Application: Sculpture and cut acrylic, fabric, double color sheet and rubber, etc

We stick the protection film on the power source to prevent the metal parts of the scrape!

### Specs:

Item		ETP80
Input	Input Voltage	AC220V or AC110V (The order should be especially instructions )
	AC Frequency	47 - 440Hz
	Max Input current	5A
Output	Max output Voltage	40KV
	Max Output current	32mA, depend on different model laser tube
Efficiency		equal or more than 90% ( load down )
Time no-failure		equal or more than 30000h
Response speed		equal or less than 1mS (the time from output of switch signal to 90% of initial setting current )
Voltage - resisting		Input - Output ,input - machine hull: C1500V 10mA60s; output cathode and machine hull connection
Usage environment		Work temperature (-10 ~ 40) , Relative humidity: Equal or less than 90%
Cooling Type		The compulsive air cooling

## Packaging & Shipping

### Packing List:

Wooden Box: There is total one carton box.

Power Source Size	11.2" x 7.5" x 4.2" (285mm x 190mm x 105mm)
Power Source Weight	6.38lb (2.9kg)
Package	Carton box

Packing Size	14.6" x 9.9" x 6.7" (370mm x 250mm x 170mm)
Gross Weight	7.92b (3.6kg)
