Products

- Large format SLR camera laser cutter
- Specialized lace laser cutting machine
- Jeans leather laser marking machine
- 3D dynamic laser marking machine
- Co2 laser marking machine
- Metal Fiber laser marking machine
- Mini desktop laser marking machine
- Automatic pick-up positioning CCD camera I
- Auto feeding laser cutting machine
- Fabric leather laser cutting machine
- Specialized acrylic wood laser cutting machi
- Motorized up down table laser cutter
- Four head high efficiently laser cutter
- Flat bed laser cutter
- Laser machine spare parts
- Fabric leather double head laser cutter

Product Description

It is designed for cooling the one CO2 glass laser tube under 150W of the laser engraving and cutting machine. (Its emitting rate is higher than the Cooling capacity is 800W.

Have design patent Certificate, CE and RoHS Certificate.

This Water Chiller has been sold largely to Europe, South America, Asia and other markets.

Economic cooling equipment, easy to install and operate, compact and easily movable.

Features:

- It is suitable for cooling the laser tube under 150W, and the temperature can be adjusted precisely.
- You can choose different models according to local voltage and frequency.
- It can extend the using life of laser tube and ensure the engraving effect better.
- Small thermolysis water cooler, energy saving, long working life and simple operation
- With completed water flow and over high temperature alarm functions
- It can control the water temperature, precision is $\pm 0.3^{\circ}\text{C}$, which provide stable working conditions for laser devices.
- This series of water chillers adopt intelligent controller, which need not adjust the control parameters under normal circumstances, it will automatically adjust control parameters according to room temperature changes, to meet the cooling requirement.
- Multiple alarm function: compressor time-delay protection, compressor overcurrent protection, water flow alarm and over high / low temperature
- Specific disconnection alarm securing protection.
- Enclosed water tanks, water used for a long time.
- Equipped with alarm output port, can quickly protect sensitive components.
- High cost performance, low failure rate.
- Multiple power specifications; CE approval; RoHS approval.

Add: No. 3, yangwu road, shangjia, wanjiang district, dongguan city, guangdong province, China.

Specs:

Model	CW-5000
Power Supply	AC 1P 220V, 50Hz
Current	1.4 - 2.1A
Compressor Power	0.3KW 0.4HP
Refrigerating Capacity	2361Btu / h 0.692KW 595Kcal / h
Refrigerant	R - 134a
Refrigerant Charge	300g
Precision	±0.3℃
Tank Capacity	6L
Reducer	Capillary
Protection	Over current protection for compressor, flow alarm, over temperature alarm
Pump Power	0.03KW
Maximum Flow	10L / min
Maximum Pumping Lift	10M
Inlet and Outlet	External Dia.: 10mm brass connector

Remark:

When alarm occurs, the error code and the temperature will be alternately displayed.

In alarming state, the alarm sound could be suspended by pressing any button, but the alarm display remains until the alarm condition is eliminated.

Maintenance

Cooling machine used in long term, you should open the machine and clean the dust in order to ensure good heat dissipation. You can use non - corrosive antifreeze if you are in the northern cold regions.

Packaging & Shipping

Packing list:

There is total one carton box.

Machine Dimension	550mm x 280mm x 430mm (21.6" x 11" x 17")
Machine Weight	57.2lb (26kg)
Package	Carton box
Packing Size	730mm x 450mm x 630mm (28.7" x 17.7" x 25")
Gross Weight	68.2lb (31kg)
